

Visit of Furore

A sensational experience among natural breathtaking views and excellent wines and flavors!

This is your chance to admire one of the most impressive spectacle of nature.. the Fjord of Furore! A suggestive valley overlooking the sea, created by the incessant work of Schiato creek that runs down the mountain from Agerola up to jump into the sea, and welcoming a tiny and picturesque fishing borgo (village). Beside you will visit a renowned local winery set among vines and rocks vertically rising over the sea of Furore. Here the selection of noble grapes, the search for the right degree of freshness and humidity, combined with the passage of time, old secrets handed down by the local winemakers and the advanced technology used by today's wine technicians give life to wines of the finest quality, appreciated the world over. We will visit the winery and the cellar dug into the rock and will taste delicious seafood specialties combined with fine and excellent DOC wines.
